

PHONE IS330.2

ZONE EX 2/22

A professional mobile phone that can be used as a radio with a programmable key - with optional PTT. Thanks to the ISM (internal shared memory) interface, it is also suitable for special MCPTT (Mission Critical Push-To-Talk) communication, which allows the use of other accessories such as RSM (receiver module) or PTT headsets. The Android-based phone is touch-enabled and very easy to manage using MDM (Mobile Device Management).

A powerful battery and the ability to charge using a desktop charger or multi-function charger complete the advantages of this highly durable phone.

Advantages:

- Push-To-Talk.
- 13-pin ISM connector (internal shared memory).
- Android™ 10.
- For zones 2 and 22.
- Push-To-Talk button (PTT ready, third-party app required, depending on country regulations).
- SOS button for lone worker protection. LWP ready (third-party app required, depending on country regulations).
- Enhanced audio and voice.
- Dual nano SIM.
- Accelerometer, gyroscope, flashlight, light sensor, compass, pressure sensors.

Contents of the set

Phone, battery, i.safe PROTECTOR 2.0 Type C USB cable, universal power adapter, screwdriver, display protection film, quick start guide, and safety instructions.
