

SMARTPHONE RG360

INDUSTRY ZONE

RG360 has been designed with a large PTT button on the left for easy and instant communication. The device is equipped with a proprietary operating system. Customized applications can be installed by RugGear and make it ready for PTT applications. Furthermore, it allows to perform key tasks in a quicker and smarter way.

RG360 has been designed with a large PTT button on the left for easy and instant communication. Prepared for PTT applications allows performing key tasks in a quicker and smarter way.

Designed with the highest audio quality, the RG360 is equipped with noise cancelling dual mic and HD broadband receiver. Together with a 105 db loudspeaker, it will allow loud and clear voice messages even in the noisiest environments. It's perfect for Push-to-talk.

RG360 is small in size, but it comes with a default 3000 mAh battery. Optimised and equipped with power-saving technology to guarantee a longer battery life and the best communication results during working hours.

The battery can also be replaced with a fully charged one to avoid any disruption during work shifts. RG360 can optionally be equipped with eSIM (embedded SIM), built into the device.
