

SMARTPHONE RUGGEAR RG760

INDUSTRY ZONE

The RG760 is the world's first Push-to-Talk (PTT) ready smartphone, offering private and public LTE networks for fast wireless communication, even in the most remote areas, thanks to the use of a private LTE Band 31 network. Compliant with IP68 standards, it provides resistance to harsh environmental conditions, allowing employees to communicate freely regardless of their location. The smartphone integrates PTT with LTE connectivity technology to create a communication tool for areas requiring effective field communication.

Advantages:

- IP68i shock resistance
- Private LTE 31 band
- Two-way radios (UHF)
- Replaceable, waterproof 5600 mAh battery
- Crystal clear sound (100 dB)
- Industrial scanning camera
